BENEDICT JOHN LAZO

QA Automation Engineer | Software Test Engineer | Test Automation

Auckland, New Zealand | 022 437 5255 | benzrodrigo07@gmail.com

---

QA Automation Engineer with **3+ years of experience** in software testing and test automation across web and enterprise applications. Experienced in **Python, Robot Framework, Selenium, Playwright, TypeScript, Jenkins, GitLab CI/CD, Docker, and AWS**, with additional experience in **C#, MSTest, and Azure DevOps**. Experienced in manual and automated testing, CI/CD test execution, test failure investigation, and Agile development environments. Embraces **AI-assisted tools and automation** to improve testing, debugging, and productivity.

CORE TECHNICAL SKILLS

Automation: Python | Robot Framework | Selenium | Playwright | TypeScript
Testing: Manual | Functional | Regression | Smoke | Compatibility | Exploratory
CI/CD & DevOps: Jenkins | GitLab CI/CD | Git | GitHub | Azure DevOps | Docker | AWS
Programming: C# | MSTest | SQL | Microsoft Visual Studio
AI Tools: GitHub Copilot | Kiro IDE | Generative AI | Claude AI | ChatGPT

PROFESSIONAL EXPERIENCE

Infor

QA Automation Engineer
April 2025 – Present

- Develop and maintain automated tests using **Python, Robot Framework, Selenium, Playwright, and TypeScript** for web-based E-commerce, administration, and ERP applications.
- Design and execute **smoke, regression, and functional tests** across releases.
- Develop and maintain **CI/CD pipelines using Jenkins and GitLab** for automated test execution and orchestration.
- Maintain and troubleshoot test environments, including **AWS EC2 instances, Docker containers, packages, and test libraries**.
- Migrated containerized smoke testing processes and Jenkins pipelines to **GitLab-based workflows**.
- Investigate automated test failures, identify defects, and collaborate with development and QA teams to resolve issues.
- Perform manual testing alongside automation to improve coverage and validate functionality.
- Work within **Agile development processes** and contribute to continuous improvement.
- Conduct knowledge-transfer sessions and support onboarding of new QA team members.
- Use **Generative AI tools and AI-assisted workflows** to support test automation and debugging.

CSI Interfusion Inc.

Software Engineer in Test
November 2023 – April 2025 | Philippines

- Performed **functional, regression, compatibility, and exploratory testing** of Microsoft Visual Studio 2022 and related software features.
- Executed and analysed automated test suites and investigated failed test cases.
- Identified, reproduced, documented, and reported software defects throughout the testing lifecycle.
- Used **C# and MSTest** to support automated testing and test development.
- Used **Azure DevOps** for defect tracking, test management, test execution, and CI/CD workflows.
- Performed cross-platform testing across **Windows, Ubuntu, Docker, and WSL environments**.
- Collaborated with developers and QA engineers to troubleshoot issues and validate fixes.

August 99

Quality Assurance Analyst
April 2023 – September 2023 | Philippines

- Executed test cases and test plans for websites, themes, and plugins.
- Performed **functional and cross-browser testing** across different environments.
- Validated application functionality against client requirements and acceptance criteria.
- Documented, reproduced, and reported software defects. Verified fixes and supported release quality.

EDUCATION

Polytechnic University of the Philippines

Bachelor of Science in Information Technology
2019 – 2023

- President's Lister — 7 semesters

ACADEMIC PROJECTS

Siklero — Mobile Application for NCR Cyclists

Capstone | 2023 — Dart | Flutter | Firebase | Git
Developed admin functionality, account management, and bicycle failure tracking.

Electronic Medical Record System

Academic Project | 2022 — C# | SQL Server | WPF | Azure
Developed a medicine-release transaction module using C# and SQL Server.
